Instructions to Authors

Malimbus publishes Papers, Short Notes, Reviews, Letters and illustrative material covering the field of West African ornithology. Short Notes are articles not exceeding 1000 words (including references) or two printed pages in length. Written contributions are accepted in English or French. Material published elsewhere, in whole or in part, will not normally be accepted.

Contributions, of which two copies are required, should be typed on one side of the paper with double spacing and wide margins. Dot-matrix printouts will only be accepted if they are of 'near-letter' quality. Authors are strongly encouraged to submit a diskette copy of their contributions *in addition* to the two printed copies. 3.5" diskettes are preferred, but 5.25" are also acceptable. Diskettes will be returned to authors. Please include a copy of the document file in ASCII text format *in addition* to a copy in whatever word-processing format is used. Consult the Editor for further details, e.g. for acceptable word-processing programs. Wherever possible, manuscripts should first have been submitted to at least one ornithologist or biologist for critical scrutiny. Manuscripts will be sent for critical review to at least one relevant authority.

Conventions regarding tabular material, numbers, metric units, references etc. may be found in this issue and should be adhered to carefully. Note particularly the following: dates should be in the form 2 Feb 1990 but months standing alone in text may be written in full; times of day are written 06.45, 17.32; coordinates are written in the form 7°46'N, 16°04'E; numbers up to ten are written in full, except when followed by abbreviated units (e.g. 6 m), numbers from 11 upwards are written in figures except at the beginning of a sentence. All **References** mentioned in the article, and only such, must be entered into the bibliography.

Articles containing lengthy **species-lists** should be in tabular format (e.g. *Malimbus* 1: 22–28 or 1: 49–54) or of the textual format of *Malimbus* 1: 90–109. The sequence in species lists should follow Brown *et al.* (1982), Urban *et al.* (1986) and Fry *et al.* (1988) *The Birds of Africa*, vols 1–3 (Academic Press, London) for non-passerines and White (1960–1963 Revised Check-lists of African Passerine Birds), Hall & Moreau (1970) *An Atlas of Speciation in African Passerine Birds*, (British Museum (Natural History), London) or Serle & Morel (1975) *A Field Guide to the Birds of West Africa* (Collins, London) for passerines, unless reasons for departure from these authorities are stated in the article. **Scientific names** must (and vernacular names should preferably) follow these authorities unless good reasons for using alternative names are stated.

Figures should be prepared as for final reproduction, allowing for 20–50% reduction, using Indian ink on good quality white paper or heavy tracing, and adhesive transfer lettering as appropriate. When designing Figures, pay attention to the page-shape of *Malimbus*.

All Papers (but not Short Notes) should include a **Summary**, not exceeding 5% of the total length. The Summary should include brief reference to the major findings of the paper and not simply review what was done. Summaries will be published in both English and French and will be translated as appropriate by the Editorial Board.

Twenty **Offprints** of Papers (but not of Short Notes) will be sent to single or senior authors, *gratis*. Offprints will not be stapled, bound or covered; they are merely cut from copies of the journal.
