Collared Flycatcher	<i>F. albicollis</i>	4	9
Spotted Flycatcher	<i>Muscicapa striata</i>	9	16
Total Migrants (33 species)		2443	6234
Other species previous years (16)			111
(49 species)		2443	6345
Non-migrants (122 species)		98	4419
GRAND TOTAL (171 species)		2541	10764

Thanks are due to many people who have assisted in this ringing; in particular to J. Adams, N. Crane, R.G. Donald, D. Ebbutt, A.M. Essien, C.H. Fry, P. Fuchs, Dr & Mrs Godfrey, M. Graham, B.H. Harris, M. Horwood, D. Lort-Phillips, A. Ludlow, E. Okon, D.M. Robinson, H. Sassoon, V. Smith and P. Woods. A number of small boys have helped (and at times hindered) me in Kano.

PROVISIONAL CHECK-LIST OF THE BIRDS OF NIGERIA

J.H. Elgood

With the increased interest in local ornithology apparent in the last few years the need for a check-list of the birds has arisen, and it is proposed to produce one. A considerable amount of labour would go into compiling merely the list of names, but the value of the list would be considerably enhanced for the inclusion of brief notes on status and distribution. Without being in any way committal with regard to the form of any list eventually produced, the following list is offered for members' comment and amendment.

About 814 species are treated; for brevity English names have been omitted but would be included in a definitive Check-List. The nomenclature follows Bannerman except that Centropus epomidis is not regarded as a distinct species but as a race of C. senegalensis; Illadopsis poliothorax is transferred from Timaliidae to Alethe in Turdidae; Prinia superciliosa = P. subflava; and Cinnamopteryx castaneofuscus is treated as a race of Melanopteryx nigerrimus.

I should be very obliged if you would send any additions, corrections

or dissentions to meet the Dept. of Zoology, University of Ibadan.

<u>Abbreviations</u>	A	Abundant	Sav	Savannah	Prt	Partial
